

PSY5240 Neuroscience Informed Counseling
Reformed Theological Seminary
Fall 2022
2 Credit Hours

Instructor

Scott Coupland, Ph.D.
Phone: (407) 278-4466
E-mail: scoupland@rts.edu
Office hours: By appointment

Class meeting time

Wednesdays, 2-4pm

Course Description

Recent developments in neuroscience have contributed greatly to the field of counseling. Awareness of brain functioning has contributed information that helps clinicians better to understand long established counseling practices and has contributed to new approaches to old problems. This course is designed to introduce you to foundational neuroscience material relevant to counseling, highlighting both the intrapersonal and interpersonal aspects of human development and ongoing functioning. The foundation that you build in this course will provide a framework within which you will learn about the counseling process.

Course Objectives

Students will demonstrate comprehension of the following CACREP standards:

- CO1** Awareness of the function and development of the human brain and the impact of biological and neurological mechanisms on mental health (2.F.3.b,e-g; 5.C.2.g)
- CO2** Awareness of applications of neuroscience information of particular relevance to counseling subjects such as fundamental counseling skills, attachment processes, trauma, self-regulation, and the integration process (2.F.2.d,g; 2.F.3.b,e,g; 5.C.2.g)
- CO3** Ability to research a neuroscience topic relevant to counseling (2.F.2.d; 2.F.3.b,g; 5.C.2.g)
- CO4** Awareness of the relationship of neuroscience to biblical teaching in a variety of areas (2.F.2.d,g)

Methods of Instruction

This course will be taught in the following formats: classroom instruction, video, class presentations, student work groups

Assignments (Student Performance Evaluation Criteria)

A1. Reflections from *Parenting from the Inside Out* (25%)

Questions for each chapter of this book will be provided for you in an APA template. The questions will ask you to reflect and apply the concepts and issues to your life and/or clinical situations. Due at 11:59pm on the weekly date listed on the course schedule.

A2. Reflections from *Anatomy of the Soul* (25%)

Questions for each chapter of this book will be provided for you in an APA template. The questions will ask you to reflect and apply the concepts and issues to your life and/or clinical situations. Due at 11:59pm the on the weekly date listed on the course schedule.

A3. Video take aways (20%)

For each video listed, write out two “take aways” that are applicable to yourself and/or clinical situations in the provided APA template. This paper is due at on May 4th at 11:59pm on Canvas.

A4. Neuroscience presentation (30%)

Students self pair into dyads to prepare and present a 20 minute presentation on a neuroscience topic related to counseling. Presentations will be made during the last two days of class (April 27th and May 4th).

1. Proposal. After selecting and exploring their topic, dyad members should write a brief a “presentation proposal” for the course instructor. The proposal should include
 - a. A clear statement of the topic.
 - b. An annotated bibliography (a brief descriptive and evaluative paragraph of each citation) of at least 12 recent (from the last 8 years) scholarly articles/chapters/items relevant to the topic.
 - c. A summary statement about the research findings and their relation to the counseling profession.
2. The instructor will review the proposal and approve it or recommend modifications.
3. Class presentation. During the last two days of class, student dyads will make their presentations to the class. Use a PowerPoint for your presentation. The PowerPoint must be uploaded to Canvas as an assignment AND as a discussion (so that other students can reference it).
4. The proposal due date is March 16th by 11:59pm on Canvas.
5. The due date for all presentations is April 27th. Upload Powerpoint presentations to Canvas by 2pm on May 16th. The order of presentations will be determined in class.

A5. Course Evaluation (0% of grade but required for course completion)

Course evaluations are crucial for assessing and improving the MAC program. Therefore, each MAC course includes an assignment to complete an anonymous online course evaluation. You will verify whether you have completed the evaluation through a Canvas quiz. This will not count toward your grade but is necessary for successful completion of the course.

Course Schedule

	Date	Topic	Reading Due	Assignments Due	CACREP 2016 Standards
L1	2/2	Introduction			2.F.2.d,g 2.F.3.b,e-g 5.C.2.g

L2	2/9	Brain organization: molecular, cellular, and structural levels	M1. <i>Parenting</i> , ch. 1 M2. <i>Anatomy</i> , ch. 1 M3. Siegel video	A1. <i>Parenting</i> reflections, ch. 1 A2. <i>Anatomy</i> reflections, ch. 1	2.F.2.d,g 2.F.3.b,e-g 5.C.2.g
L3	2/16	Brain organization: Levels of functional governance, brain lobes, and systems	M1. <i>Parenting</i> , ch. 2 M2. <i>Anatomy</i> , ch. 2	A1. <i>Parenting</i> reflections, ch. 2 A2. <i>Anatomy</i> reflections, ch. 2	2.F.2.d,g 2.F.3.b,e-g 5.C.2.g
L4	2/23	Memory systems	M1. <i>Parenting</i> , ch. 3 M2. <i>Anatomy</i> , ch. 3	A1. <i>Parenting</i> reflections, ch. 3 A2. <i>Anatomy</i> reflections, ch. 3	2.F.2.d,g 2.F.3.b,e-g 5.C.2.g
L5	3/2	Memory systems	M1. <i>Parenting</i> , ch. 4 M2. <i>Anatomy</i> , ch. 4 M4. to M8. Siegel videos	A1. <i>Parenting</i> reflections, ch. 4 A2. <i>Anatomy</i> reflections, ch. 4	2.F.2.d,g 2.F.3.b,e-g 5.C.2.g
L6	3/9	Attachment theory	M1. <i>Parenting</i> , ch. 5 M2. <i>Anatomy</i> , ch. 5 M9. Panksepp video M10. Ressler video	A1. <i>Parenting</i> reflections, ch. 5 A2. <i>Anatomy</i> reflections, ch. 5	2.F.2.d,g 2.F.3.b,e-g 5.C.2.g
L7	3/16	Emotions	M1. <i>Parenting</i> , ch. 6 M2. <i>Anatomy</i> , ch. 6	A1. <i>Parenting</i> reflections, ch. 6 A2. <i>Anatomy</i> reflections, ch. 6 A4. Neuroscience presentation proposal	2.F.2.d,g 2.F.3.b,e-g 5.C.2.g
	3/23	No class, Reading week			
L8	3/30	Emotions	M1. <i>Parenting</i> , ch. 7 M2. <i>Anatomy</i> , ch. 7 M11. Siegel video	A1. <i>Parenting</i> reflections, ch. 7 A2. <i>Anatomy</i> reflections, ch. 7	2.F.2.d,g 2.F.3.b,e-g 5.C.2.g
L9	4/6	Mirror neurons, resonance, attunement, and empathy	M1. <i>Parenting</i> , ch. 8 M2. <i>Anatomy</i> , ch. 8	A1. <i>Parenting</i> reflections, ch. 8 A2. <i>Anatomy</i> reflections, ch. 8	2.F.2.d,g 2.F.3.b,e-g 5.C.2.g
L10	4/13	Stress networks and trauma	M1. <i>Parenting</i> , ch. 9 M2. <i>Anatomy</i> , ch. 9, 10 M12. to M14. Siegel videos	A1. <i>Parenting</i> reflections, ch. 9 A2. <i>Anatomy</i> reflections, ch. 9, 10	2.F.2.d,g 2.F.3.b,e-g 5.C.2.g
L11	4/20	Personal and interpersonal integration	A2. <i>Anatomy</i> , ch.11	A2. <i>Anatomy</i> reflections, ch. 11, 12	2.F.2.d,g 2.F.3.b,e-g 5.C.2.g

L12	4/27	Student neuroscience presentations	A2. <i>Anatomy</i> , ch. 12	A2. <i>Anatomy</i> reflections, ch.12 A4. Presentations	2.F.2.d,g 2.F.3.b,e-g 5.C.2.g
L13	5/4	Student neuroscience presentations	A2. <i>Anatomy</i> , ch. 13	A2. <i>Anatomy</i> reflections, ch. 13 A3. Video take aways A4. Presentations	2.F.2.d,g 2.F.3.b,e-g 5.C.2.g

Student Learning Outcome Table

The table below shows how the objectives of this course will be met by readings, lectures and assignments used. Details about specific course objectives, assignments, and evaluation methods can be found in previous sections of this syllabus.

Course Objective	Reading(s)	Lecture(s)	Assignment(s)	CACREP Standard(s)
CO1. Brain function	M1. to M14.	L1. to L13.	A1. to A4.	2.F.3.b 2.F.3.e 2.F.3.f 2.F.3.g 5.C.2.g
CO2. Neuroscience and Counseling Issues	M1. to M14.	L1. to L13.	A1. to A4.	2.F.2.d 2.F.2.g 2.F.3.b 2.F.3.e 2.F.3.g 5.C.2.g
CO3. Explore relevant neuroscience research	Research material for assignment A4.	L11. to L13.	A4.	2.F.2.d 2.F.3.b 2.F.3.g 5.C.2.g
CO4. Neuroscience and biblical teaching	M2	L1., L10.	A1. To A3.	2.F.2.d 2.F.2.g

Policies and Important Information

Written Work Format. All written work must conform to current American Psychological Association (APA) style unless otherwise specified. If a student does not have a copy of the APA manual, one should be purchased, or students may use one of the many APA style websites available online, for example:

https://owl.purdue.edu/owl/research_and_citation/apa_style/apa_style_introduction.html.

Assessment will include how well students represent their thoughts on paper, craftsmanship in writing, and organization of all written work.

Disability Accommodation Policy. If you have a documented disability (physical, psychological, learning, or other disability which affects your academic performance) and would like to receive academic accommodations, please inform your instructor prior to the start of this course. You must provide a letter from the Dean of Students that verifies your disabled status. The instructor and student will discuss the available accommodations for the course. If the student with a disability does not disclose that s/he has a disability, then the student is agreeing to take full responsibility for any related consequences that may occur.

Access to Research Database. RTS provides MAC students with access to the Ebscohost Psychology & Behavioral Science Collection of full text journal articles. You can access this

collection from computers in the library, or from your home computer by following the link below and logging in with a username and password to be provided in class.

<http://search.ebscohost.com/>

Submission of work. All assignments should be submitted on the Canvas course webpage.

Late work. All assignments are due as scheduled regardless of attendance unless prior arrangements are made with the instructor. Assignments turned in late will be deducted 1/3 letter grade for each late day.

Return of work. All work will be returned to students via Canvas. Additionally, if students would like additional feedback, they may set up time before or after class to meet with the professor.

Grading Scale

A (97-100)	B- (86-87)	D+ (75-77)
A- (94-96)	C+ (83-85)	D (72-74)
B+ (91-93)	C (80-82)	D- (70-71)
B (88-90)	C- (78-79)	F (Below 70)

Attendance Policy. Regular attendance is expected and required. Excessive absences (more than 1 class meetings) will result in the loss of points equal to one letter grade per absence. If serious illness or an emergency prevents a student from attending any class, please notify the instructor before the class begins. It is the responsibility of the student to obtain any materials handed out or presented during the missed class from a classmate.

Class Participation. Students are expected to participate in all components of the class. Each student is expected to read all the assigned materials in advance for each class and have prepared written comments and questions for class discussion. Contributions should reflect knowledge of the reading assignments or other sources.

Course Objectives Related to MAC Student Learning Outcomes

Course: PSY5240 Neuroscience Informed Counseling

Professor: Scott Coupland, PhD

Campus: Orlando

Date: 2022

MAC Student Learning Outcomes <i>In order to measure the success of the MAC curriculum, RTS has defined the following as the intended outcomes of the student learning process. Each course contributes to these overall outcomes. This rubric shows the contribution of this course to the MAC outcomes.</i>	Rubric ➤ Strong ➤ Moderate ➤ Minimal ➤ None	Mini-Justification
FOUNDATIONS Understands and applies the basic knowledge needed to be an effective counselor including: the history and philosophy of counseling/soul care, a variety of counseling models and theories, ethics and professional standards of practice, and a psychological, biblical and theological framework for counseling/soul care.	Strong	Lecture material, readings, and assignments create a foundational understanding of neurobiological realities.
COUNSELING, PREVENTION, AND INTERVENTION Able to describe and apply the principles of mental and spiritual health, including prevention, intervention, consultation, education, and advocacy, as well as the operation of programs and networks that promote mental health in a cultural/global society.	Strong	Lecture material, readings, and assignments are applied to clinical situations.
DIVERSITY AND ADVOCACY Understands and demonstrates how living in a cultural/global society affects clients who are seeking clinical mental health counseling services, as well as the effects of sin such as racism, discrimination, sexism, power, privilege, and oppression on one's own life and career and those of the client.	Minimal	Lecture material and readings provide an understanding of universal and variable presentations of neurobiological functioning.
ASSESSMENT Understands and applies various models and approaches to clinical evaluation and their appropriate uses, including diagnostic interviews, mental status examinations, symptom inventories, and psychoeducational and personality assessments, and is sensitive to the complications of diagnosis and interpretation of formal and informal evaluation.	Minimal	Lecture material and readings provide categories for assessing neurobiological functioning.
RESEARCH AND EVALUATION Understands and demonstrates the ability to critically evaluate research relevant to the practice of clinical mental health counseling through a biblical worldview.	Strong	Through the readings and the neuroscience presentation.
DIAGNOSIS Knows and applies the principles of the diagnostic process, including differential diagnosis, and the use of current diagnostic tools, such as the current edition of the <i>Diagnostic and Statistical Manual of Mental Disorders (DSM)</i> , and evaluates them through a biblical and theological framework.	Minimal	Through the application of neuroscience concepts to issues like depression and anxiety/fear.
INTEGRATION Integration of biblical & theological concepts with counseling practices.	Strong	Through the Thompson reading, the reflection papers, and the neuroscience presentation.
